

Harbor Bank Covenant Monitoring Addendum

Workbook file: quarterly_financials.xlsx

Sheet to use: Quarterly Results

Use only rows where Testing Eligible = Yes as covenant test dates.

All amounts are in USD millions.

Defined Terms

1. Trailing Base EBITDA is the sum of Base EBITDA for the current quarter and prior three quarters.
2. Trailing Permitted Addback is the sum of Permitted EBITDA Addback for the current quarter and prior three quarters.
3. LTM EBITDA = Trailing Base EBITDA + min(Trailing Permitted Addback, 20% of Trailing Base EBITDA).
4. Total Net Leverage Ratio = (Total Debt - Allowed Cash Netting) / LTM EBITDA.
5. Senior Secured Leverage Ratio = (Senior Secured Debt - Allowed Cash Netting) / LTM EBITDA.
6. Fixed Charge Coverage Ratio = (LTM EBITDA - LTM Maintenance Capex - LTM Cash Taxes) / (LTM Cash Interest - LTM Interest Income + LTM Scheduled Amortization).

Special Provisions

1. Allowed Cash Netting = min(Unrestricted Cash, Cash Netting Cap).
2. For quarter ends in calendar Q4, increase Cash Netting Cap by 5.0 before the lesser-of test.
3. If Holiday Waiver = Yes, do not test Total Net Leverage Ratio or Fixed Charge Coverage Ratio for that date. Senior Secured Leverage Ratio still applies.

Metric order for reporting breaches:

Total Net Leverage Ratio | Senior Secured Leverage Ratio | Fixed Charge Coverage Ratio

Schedule A - Covenant Levels

Testing date <= 2024-06-30 | Total Net Leverage Ratio max 4.50 | Senior Secured Leverage Ratio max 3.20 | F

2024-09-30 through 2025-03-31 | Total Net Leverage Ratio max 4.25 | Senior Secured Leverage Ratio max 3.0

Testing date >= 2025-06-30 | Total Net Leverage Ratio max 4.00 | Senior Secured Leverage Ratio max 2.75 | F
